

# Arborform Doors

Premium Thermoformed Doors

# Arborform Doors

## Introduction

Formed in 1979, Arborline Products has grown to be New Zealand's leading specialist door manufacturer. Significant investment in cutting edge technology has Arborform doors to the forefront of the thermoformed door market in New Zealand, setting the standard in quality, innovation and service.

Arborform doors are manufactured in a process which uses extreme heat and pressure to seamlessly bond a thin vinyl laminate to a white melamine backed, moisture resistant MUF.

This produces an extremely long lasting, durable surface which is chip and scratch resistant, easy to clean and impervious to staining from almost all household substances.

With over 80 contemporary and woodgrain colours and more than 40 styles to choose from, Arborform can accommodate every taste in kitchen and bathroom design.

# Arborform GLOSS

Introduced in 2008, Arborform premier gloss proved an immediate success. The deep and lustrous finish rivals that of high gloss lacquer but with all the long lasting, hard wearing properties of thermoformed doors. A combination that will have your kitchen maintain its beautiful appearance year after year.

With over 30 colours in the gloss range and a number of styles to choose from, Arborform gloss can provide a stunning finish for your kitchen doors and panels.

Kitchen:  
Milford - Stainless Steel Gloss Style 1

# Arborform Doors

Arborform doors have a large range of styles and edge profiles to choose from.

From fashionable straight lines to the more traditional panelled design Arborform has a design to suit you.

*Kitchen Left:  
Nelson - Moleskin Style 2*

*Kitchen below:  
Pauanui - NX Antique White Style 1*

**Stain resistant** - most household substances can be wiped clear with a damp cloth.

**Scuff and scratch resistant** - hard wearing vinyl surface with excellent resistance to impact.

**Water resistant** - seamless front face and edge, keeps water out.

**Chip resistant** - won't chip like a painted surface.

## Timber Doors

For timeless character and fashionability it is hard to go past the natural beauty of timber. It has been a popular choice for kitchen finishes for the last 100 years and you can be assured it will be for many more to come. Arborline produce a vast range of doors in any number of exciting styles, using almost any timber currently available.

## Timber Bench tops

To complement our range of timber doors and cabinetry, Arborline now produce a range of timber tops in a variety of native and exotic timbers. Bench and serving tops, bar tops and counters can all be manufactured to your specifications.

## Arborline Guarantee

1. All Arborform doors are guaranteed in terms of the Consumer Guarantees Act.
2. Due to the nature of the process some minor bowing may occur. This is not considered a defect.
3. In addition to all other statutory rights and remedies the consumer has, Arborline voluntarily guarantees Arborform doors for a period of 10 years, to the original purchaser, against all defects in material or workmanship subject to:
  - (a) compliance by the consumer or consumers agent with the terms regarding care and treatment of doors.\*
  - (b) Arborline is not liable for faults or defects occurring for reasons outside its control.
4. Such guarantee will be met, at the option of Arborline, by either repair, replacement (from the current range of colours and styles at the time), or by an appropriate monetary refund.

**Under no circumstances will liability exceed the original purchase price of the defective door(s). Arborline will not meet any costs of refitting, refinishing, installation etc.**

## \*Care and Treatment

Whilst Arborform doors are water resistant they are not waterproof. To avoid damage to the doors care should be taken to avoid excessive exposure to water, steam or extreme humidity. High temperatures should also be avoided by keeping hot appliances, implements and cooking utensils off Arborform doors.

Doors should only be cleaned by wiping with a damp cloth. A multi purpose non-abrasive spray cleaner may be used for any stubborn marks. DO NOT use solvents or abrasives on Arborform doors e.g. Janola, thinners, scourer pads or similar.
