

Arborline Doors

MASTERS OF STYLE AND CRAFTSMANSHIP

Introduction

Arborline Products Limited

Formed in 1979, Arborline Products has forged a reputation as one of New Zealand's leading door manufacturers.

A family owned company, service and quality are paramount with customer requirements always handled on a personal basis.

Each door produced in our Hamilton factory is individually crafted by experienced staff who take pride in the knowledge that their doors finish up gracing New Zealand's finest homes.

Arborline Custom Exterior doors

Award Winning Doors

Featured here are the award winning doors from the New Zealand Joinery Manufacturers awards in 2004 and 2006.

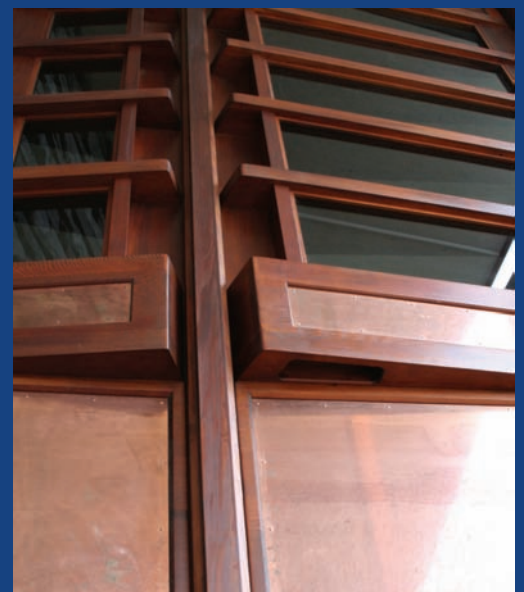

2004

Crafted from European Ash. 2.6m x 1.7m and 60mm thick and featuring an elliptical tapered profile on all mullions.

2006

Western Red Cedar with the addition of copper panels. A feature of this door is there is no visible hardware - hinges, handles or locks. Winner also of the supreme award.

Arborline Interior Doors

In addition to the range of exterior doors Arborline can produce those styles for interior use, along with cavity sliders, French doors, bifolds, veneer panel and louvre doors etc.

Arborline Guarantee

- 1 All Arborline products are guaranteed in terms of the Consumer Guarantees Act.
- 2 In addition to all other statutory rights and remedies the consumer has, Arborline voluntarily guarantees all its doors for 5 years against defects in materials or workmanship subject to:
 - (a) compliance by the consumer or consumer's agent with the terms regarding care and treatment of doors.
 - (b) Arborline is not liable for faults or defects occurring for reasons outside its control.
- 3 Such Guarantees will be met at the option of Arborline either by repair or replacement or by an appropriate monetary refund.

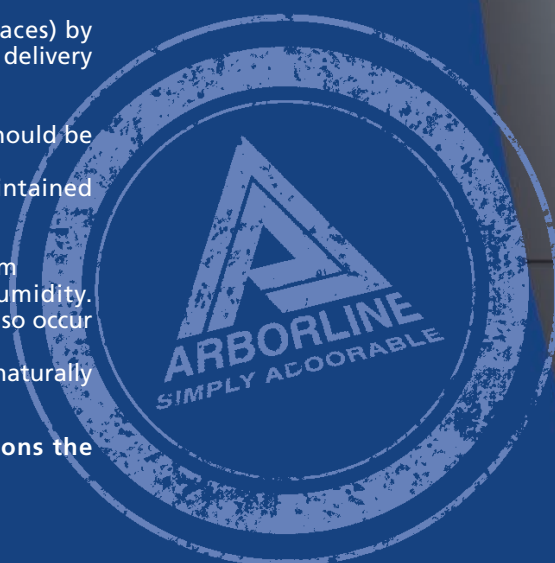

Arborline Doors will not cover any costs for reinstatement of a door. e.g. re hanging, re painting etc.

Care and treatment of doors

IMPORTANT: Doors must be sealed completely on all 6 edges or WARRANTY IS VOID

- 1 Doors are designed for sheltered exterior use and should not be exposed to driving rain or extended periods of direct sunlight.
- 2 Doors are supplied sanded and ready for use. However, a light sand to corners and sharp edges with fine grit paper (180-240 grit) prior to sealing is recommended.
3. Doors exposed to sunlight should not be painted in dark colours as this can cause heat build up leading to shrinkage and cracking of the door.
4. Doors must be sealed completely (on all 6 surfaces) by exterior paint or marine varnish within 3 days of delivery of the door.
 - (a) Sealant manufacturers recommendations should be followed closely.
 - (b) A complete waterproof skin should be maintained always.
5.
 - (a) Some shrinkage or expansion can occur from seasonal changes in temperature and humidity.
 - (b) Minor warping or twisting up to 6mm can also occur normally and is not considered a defect.
 - (c) Colour and grain variations in timber occur naturally and are not considered a defect.

If you choose to ignore these recommendations the warranty is void.
